SPECIAL SYSTEM

- * **RAPID WHITE** : NON-BLEEDING INK for %100 polyester fabrics.
- * **ULTRA BASE** : Super Elastic, glossy transparent, increases elasticity in high density printing.
- * **Stick Base** : Base for preventing "hair and feather" formation
- * **Flash Base** : Soft-hand and rolling effect high density transparent.
- * **Hard High** : Hard-hand high density. Can be used for high density foil printing.
- * **Shine Base** : Sprinkled effect glitter base
- * **Pls Flock Glue** : Plastisol flock glue, Enables to very detailed flock printing.
- * **Anti-Foil Solution** : Prevents foil sticking, Enables foil application with plastisol and water-based ink printing.
- * **Cracking White SOFT/HARD** : Water-based, Can be coloured, Gives crack effect.
- * **Anti-Migration Additive** : Additive used with water-based inks, Prevents ink migration.
